

# LUKE VELLA

---

## SUMMARY

Multidisciplinary developer with 10 years experience. Highly adept at building scalable and responsive web applications. Expert knowledge of JavaScript both in the browser and on server-side using NodeJS. Experienced in working within a team and using best practices for contributing to large projects.

## RECENT EXPERIENCE<sup>1</sup>

### UI Developer (Contract)

03/2018 - PRESENT

Concentra Analytics, London

- Worked on the company's flagship product using Typescript, React and Statecharts to build the UI for a data visualization and analytics application.
- Created coding guidelines, defining the directory structure for the project, programming principles and best practices.
- Contributed to the development of a UI Language aimed to create a consistent look and feel across projects.

### Full Stack Developer (Contract)

09/2018 - 02/2019

Tesco, London

- Developed and maintained a portfolio of applications built with React, NodeJS and using GraphQL to consolidate data from multiple services.
- Applied optimizations to the CI pipeline to improve build times by 40%.

### Full Stack Developer (Contract)

06/2017 - 09/2018

ERGO Digital IT, Berlin/Remote

- Served as tech lead for the development of an insurance classification service.
- Set up a continuous delivery pipeline using AWS Lambda to deliver native iOS and Android apps to an enterprise app store.
- Worked on a React app that allowed users to register their home for emergency services using voucher codes.

### Full Stack Developer

03/2016 - 03/2017

SAP, Machine Learning Incubation, Berlin

- Designed and implemented a service oriented architecture for an invoice data extraction service capable of handling thousands of requests per minute.
- Introduced Docker to facilitate development and deployment of microservices.
- Built a single-page application using React and Redux to demonstrate the functionality of an invoice data extraction service.

### Frontend Developer / UI Designer

06/2015 - 02/2016

LOCK8, Berlin

- Built a web based fleet management system with React using a Flux architecture.
- Optimized performance and delivery of resources using Webpack to chunk portions of the codebase.
- Set up workflows for development and deployment of the product across multiple environments.

## EDUCATION

### B.Sc. (Hons.) Computer Science & Artificial Intelligence

2009 - 2012

University of Malta

## SKILLS

### Frontend Development

Javascript, ES6, Typescript, React, Redux, HTML, CSS, Webpack, Jest, Enzyme, React Testing Library.

### Backend Development

NodeJS, Express, Hapi.js, PHP, MySQL, PostgreSQL, MongoDB, RabbitMQ, Redis.

### Design

Sketch, UI Design, UX Design.

### Other

AWS, CI/CD, Docker, Flow, Git, GraphQL, Jenkins, Kubernetes, Objective-C, Swift, TDD, Unix.

## SIDE PROJECTS

### Hint

[hint.lukevella.com](https://hint.lukevella.com)

Minimalist navigation app for iOS.

### react-activity

[labs.lukevella.com/react-activity](https://labs.lukevella.com/react-activity)

React component library.

### Rally

[rally.co](https://rally.co)

Collaborative scheduling application.
