Luke Vella
Designer & Developer

me@lukevella.com
Berlin, Germany

I'm a multidisciplinary developer with a passion for beautiful user interfaces and great user experiences.

Work Experience

Full-Stack Developer @ SAP SE   *Mar 2016 – Present*

- Developing new cloud-based products that mitigate the administrative pain of starting and running a small to medium sized business.
- Building an IMAP as a Service solution to interface with email services through a REST API.

UI/UX Designer & Developer @ LOCK8   *Jun 2015 – Feb 2016*

- Lead the design & development of a web based Fleet Management System.
- Set up workflows for development and deployment of the product across multiple environments.
- Redesigned lock8.me

iOS Developer @ Float.travel   *Sep 2014 – May 2015*

- Built an iOS application that offered free and paid walking tours.
- Developed a RESTful API that served content from a Wordpress site to the mobile application.
- Modularized the application to allow the production of a white label solution.

Front-end Developer @ Zeepex   *Jul 2012 - Dec 2014*

- Built a single-page application that offered advanced search, data management and other tools that aimed to facilitate sourcing for recruiters.
- Developed an isomorphic javascript application that could intelligently discover social media profiles belonging to a person.
- Designed and developed zeepex.com

Front-end Developer @ AWHPoker   *Feb 2009 – Nov 2011*

- Built and maintained a web application that allowed users to view information from the gaming network's back-office.
- Built a number of internal tools in the form of web applications and browser extensions.
- Redesigned multiple iterations of awhpoker.com
